- Cleaning and maintenance is made fast and simple

Virtually silent

- Delivery of medication anywhere

PHILIPS

portable mesh nebuliser
Hand-held treatment Treatment in 4 minutes**, Built-in rechargeable battery

HH1342/00

Highlights

Built-in long-life battery

The rechargeable battery provides up to 30 treatments (120 minutes of use) between each charge.

Easy operation

Start therapy with the push of a button. Audible and visual signals indicate when therapy is complete. The device then turns itself off.

Simple, two-part construction

The easily detachable mouthpiece makes the InnoSpire Go simple to use, clean and maintain. Fill, Treat and Clean in three easy steps.

Virtually silent treatment

A small, portable and discreet nebuliser that can be used anywhere, so you or your child can enjoy the daily activities of life, wherever you are.

Fast treatment

Clinically proven Aerogen Vibronic vibrating mesh nebuliser therapy device that turns liquid medication into fine mist, for fast treatment.

Versatile

InnoSpire Go is designed for use with commonly prescribed aerosol medications for respiratory diseases.
